Education

2022 - 2026	B.Tech CSE: Cyber Security and Forensic from Sharda University	(8.3 CGPA)
2020 - 2022	Higher Secondary (12 th) from St. Karen's Secondary School	(73%)
2020	Secondary (10 th CBSE) from St. Karen's Secondary School	(83%)

Work Experience

Software Development Intern

May 25 - July 25

Full Stack Development UIPRO CORPORATION PVT. LTD.

- Worked on functional Student Grievance Management System using Django, HTML, CSS & JavaScript. It has role-based access controls and enhanced user experience with optimized layouts.
- Cloud deployment on platforms like Render and Vercel.
- Also built a C++ console application focused on object-oriented programming and file handling.

Projects

Steganography_Website

<https://steganography-website-one.vercel.app/>

A website for all-encompassing media file steganography with Python backend, Node.js and React. Divided into two stages: backend converts media files to steno files, and frontend provides user interaction.

JustVue

<https://codemgr.netlify.app/>

A secure snippet manager which stores code snippets, images, PDF documents and ZIP files ensuring data is accessible and up-to-date across all devices. Built with JavaScript

Invest_Insight

<https://invest-insight.onrender.com/>

A Django-based financial planning solution with tools like SIP calculators, FD/RD planners, and real estate insights to help users make informed general decisions.

Password_Manager_App

https://github.com/Surventurer/Password_Manager_App

A Password Manager created with Python using Kivy library (GUI). It also consists of free database called Clever Cloud.

QA_Serve

https://github.com/Surventurer/QA_Serve

A fast API that reads PDF files and images using OCR technology, then automatically generates study questions and answers from the content using AI (Qwen3 model). Useful in Educational sector.

Eviblock

<https://66eua-kiaaa-aaaam-aeiha-cai.icp0.io/>

It is a blockchain-based platform for verifying digital evidence, ensuring tamper-proof file authenticity and a secure chain of custody.

Skills

Programming & Database: Python, C, C++, MySQL, MongoDB

Development: Flask, Django, Kivy, Git/GitHub, React Next.js, API

Tools: Docker, Proxmox, Wireshark, Burp Suite, AutoCAD, Adobe Photoshop

Other: Microsoft Office, English Typing, Web Hosting, Computer Maintenance

Publications

Rajpati, Abhinav and Diwakar Pareek (Nov. 2024). "Paper: Sustainable E-Waste Management: A Novel Framework Incorporating Circular Economy Principles". In: *IJRASET* 2321-9653, Volume 12 Issue XI. url: <https://doi.org/10.22214/ijraset.2024.65558>

Certifications

- CompTIA Linux+ – Udemy (2023)
- Java Foundations – Oracle Academy (2023)
- Ethical Hacking Workshop Participation – Rendezvous IITD (2024)
